April 13, 1981

Dear Dealer:

With further reference to our letter of March 17th where we have enclosed a supplement of nineteen pages, we are herewith enclosing an additional two and a half pages covering prices for the Moto Guzzi models.

These two and a half pages cover spare parts numbers which have not been included either in the 1980 parts price list or in the above-referred nineteen page supplement. Some of these items are updated parts numbers and many of them cover the "G2" Moped parts that are not interchangeable with the previously imported mopeds. Again we would like to repeat that this supplement should be used in conjunction with our January 1, 1980 price list and with the previously mailed supplement.

Thanking you for your cooperation, we remain

Very truly yours,
